Tuesday, October 29, 2019, 6:30 - 8 pm

Join the Friends of Sherburne for a discussion of The Invention of Nature: Alexander von Humboldt’s New World by Andrea Wulf.

Among Humboldt’s most revolutionary ideas was a radical conception of nature as a complex and interconnected global force that does not exist for the use of humankind alone. Brilliantly researched and stunningly written, The Invention of Nature reveals the myriad ways in which his ideas form the foundation of modern environmentalism—and reminds us why they are as prescient and vital as ever.

Meet at the Oak Savanna Learning Center, 16797 289th Avenue NW, located NW of Zimmerman on the south side of County Rd 9, approximately 5 miles west of Highway 169. Light refreshments will be served.
